PLASTER

Building a better future

PLASTER BY CEMEX

Project Spotlight – Emirates Palace Hotel - Abu Dhabi

CEMEX supplied over 2,000 cubic metres of ready to use and coloured plaster for this world famous hotel complex covering 100 hectares, giving an attractive durable, low maintenance, matching the requirements of this prestige development.

CEMEX plasters are an ideal solution to providing a high quality, durable and cost effective finish to structures. CEMEX plasters can be produced in a wide range of colours and our Turath plaster is specially designed to match the local traditional architecture, providing a natural appearance.

Features and Benefits

Delivered ready to use

- L Mixed to the same formulation consistently
- L Eliminates plant and labor for mixing on site
- L Usable for a full working day

Available in a range of colors

- L No need to paint
- L Will not fade, peel or flake like a paint
- L Colour is consistent throughout depth of plaster

PERFORMANCE FOOTPRINT

TECHNICAL DATA

Concrete Grade (N/mm ²)	05 to 20
Durability ¹ (RCP, WP, WA)	Not Required
Workability Slump (mm)	75 to 125
Workability Retention (Hours)	up to 8
Maximum Aggregate Size (mm)	5
Typical Hardened Density (Kg/m ³)	2250
Cement Types ²	OPC, White Cement
Supplementary Cementitious Materials ³	
Colours	Grey or Colored
